SINGLE TOUCH

monitor system

The ONLY Single Monitor System in Digital Veterinary X-Ray

Simply

- pick the species
- pick the body part
- pick view (Lateral, DV or VD)
- enter body part thickness

Benefits of the SINGLE TOUCH Monitor System:

SINGLE TOUCH Monitor is the only monitor that needs to be in the x-ray room.

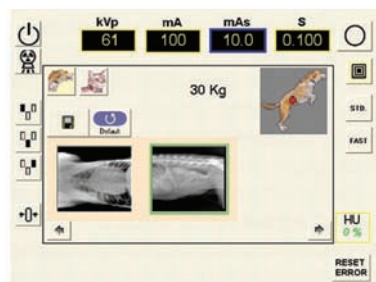

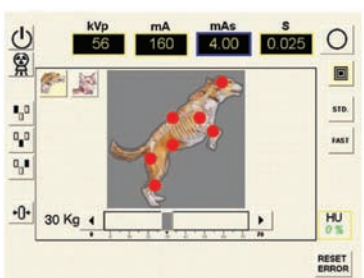

The computer system and High Resolution monitor can be up to 75 ft. away.

It allows you to stay table side with the animal, improving patient safety and convenience.

Use the preset technique or override the preset and manually modify your own technique.

All from the SINGLE TOUCH Monitor.
